Carbohydrate	7.2 g
Fat	45.2 g
Protein	45.9 g
Water	0 g

Directions

✓ The first stage

◇ Seasoned raw ribs dipped in flour and grilled, stewed to a soup consistency

◇ Roasted and then stewed to produce aroma and stewed in the soup together

◇ Roast and color before stewing, which can save stewing time

◇ Roast first and then stew to remove excess fat, and the soup is less oily

✓ The second stage

◇ The red wine broth should cover the surface, and the broth is 1.7 times that of beef

◇ Stew on medium heat for 2 hours to soften the glutinous muscles

◇ Uncover the lid for the first hour, speed up the stewing and bring to a boil

◇ Cover the lid for the second hour to prevent the surface of the sirloin from being air-dried and over-burned

◇ Take it out and cover it for 30 minutes to help soften the taste

✓ The third stage

◇ Collect the juice on high heat, remove the beef, and make the soup separately

◇ Beef ribs need to consider weightlessness and step retention rate, the longer the stew, the better

◇ It is necessary to consider the upper level of access and safety issues

◇ Without the lid, the high temperature accelerates the juice collection and shortens the time

◇ Steam oven production does not require human care, stirring at any time
